

CONFIDENCE TODAY. CLIMB TOMORROW.

We are excited to offer Girl Scout virtual troop meetings and at home programs for girls age 5-17 years old. Our Badge-in-a Box program includes a complete set of creative supplies and activities for girls and her family to work together to learn exciting new skills such as coding, story-telling, art in the outdoors, super-sleuthing like a detective, and so much more. These activities are designed to complete at your own leisure, and the programs are available now and during the new school year. This is a funded program-free to the girls at Delsea Village and Delsea Garden.

Girl Scouts of Central & Southern NJ 13th Annual Girl Scout Leadership Summit

About this Event

Grades – 6-12

The 13th Annual Girl Leadership Summit Virtual Event is designed with girls in mind to help them discover future career and leadership goals. They will be inspired as they choose the path that speaks to them and connect with women who have led the way in medicine, business, law, politics, art, and industry. Girls will start the day by meeting women in a variety of careers in our Career Cafe. They will have the opportunity to select two of these careers that they want to learn more about and attend a 15-minute session with those professionals! From there they will take a deeper dive into multiple workshops learning about different careers in the career path they have chosen: Medical, STEM, Outdoor/Environment, Trade Skills, Law/Politics, and Business/Finance.

When registering, girls will [select their career path for the day](#) from the workshops below:

The World's Healers: Interested in learning about possible careers in medicine? Then this is the path for you! Learn from female professionals in a variety of medical fields. Girls also learn how to respond in an emergency situation and how to relieve stress and anxiety.

The Future of Tomorrow: Science, Technology, Engineering, Art and Math is the way of the future. Walking down this path will help you explore two of these careers and see what the future holds.

Nature in your Future: This path will teach you about some of the exciting careers that revolve around the environment. Learn how, where, and what is needed to pursue careers that involve the great outdoors.

Life is Hands-On: Ever wonder the process behind everyday things? Taking this path you will learn how to properly decorate or fill a cupcake. You will also learn what it's like to be in the fashion industry and create something with your own hands.

The Jury is Out: Are you curious about what it's like to work in politics/law? The Jury is Out path could help you decide. Learn the ins and out of this world as you venture down this path and see if this can be your future.

Ms. Entrepreneur: Have you ever dreamed of becoming a CEO, or owning your own business? Join us to learn about career readiness, planning, budgeting, business, and finance!

Badge Information: If a workshop completes any badge requirements, the participants of that workshop will be notified on the day of the event.

Supply List: All supplies for this event will be mailed to each registrant prior to November 15, 2020. *You will receive the link to the webinar in the confirmation email.*
